

HYTEC GREEN NITRILE GLOVES, POWDER FREE, X- LARGE

Crafted from synthetic nitrile latex in a vibrant green hue, these gloves are powder-free and non-sterile, designed for versatility and reliability. Their finger-textured surface enhances grip, while the ambidextrous design and beaded cuff ensure a secure fit for both left and right hands. These are a green option, specially formulated to biodegrade in biologically active landfills. Featuring online single chlorination, donning is easy, with reduced risk of allergic reactions. Stored in dry conditions away from direct sunlight, these gloves maintain their integrity for up to three years from the manufacturing date, ensuring lasting reliability whenever you need them.
